Electronic City , Bangalore, Karnataka, India | +91 7339117881 | ahilesh232@gmail.com | [LinkedIn](#) | [Github](#)

PROFESSIONAL_SUMMARY

Passionate Computer Science Engineering student with knowledge in Frontend Development, Data Science, and Artificial Intelligence. Skilled in Python, HTML, CSS, JavaScript, React.js,Excel and SQL with hands-on experience building responsive web applications and AI-based systems. Interested in developing data-driven applications and intelligent solutions that solve real-world problems.

EDUCATION

NPR College of Engineering & Technology - B.E. Computer Science and Engineering	2022-2026
CGPA: 8.16	
Christian Matriculation Higher Secondary School ,Oddanchatram, Dindigul- Class XII	2021-2022

PROFESSIONAL EXPERIENCE

INTERN

- Infosys Springboard Virtual Internshsip:** Completed virtual internship focused on AI-based document analysis and contract risk assessment.
- Data Science Intern – Besant Technologies Pvt. Ltd., Electronic City, Bangalore:** Worked on data analysis, visualization, and machine learning concepts using Python, SQL, and data science tools
- Web Development – Karthikesh Robotics Pvt. Ltd., Madurai–** Built and optimized dynamic, responsive websites using modern web technologies.
- Data Analytics – Innervex Technologies Pvt. Ltd., Coimbatore–** Applied Python and MySQL for data analysis and visualization to derive business insights.

SKILLS

- Programming:** Python, Java (Basics), C
- Web Development:** HTML, CSS, JavaScript, React.js
- Data Analytics:** MySQL, Power BI,Excel (Pivot Tables, XLOOKUP, Charts), Power Query, DAX
- AI & Data Technologies:** Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Langchain
- Core Skills:** Software Development, Data Structures, Computer Networking

PROJECT

AI-Driven E-Commerce Platform with SQL-RAG Integration — Python, FastAPI, SQL, React.js, LangChain

- Developed an AI-powered platform for querying SQL databases using natural language.
- Integrated FastAPI, LangChain, and LLMs for automated SQL generation and analytics.

AI Contract Analysis System — Python, Streamlit, NLP

- Built an AI-based system for contract analysis and risk identification.
- Applied NLP techniques and developed an interactive Streamlit interface.

FoodExpress — React.js, Vite, JavaScript, CSS

- Developed a responsive online food ordering and delivery web application.
- Implemented cart management and interactive UI components.

KKR Website Clone — HTML, CSS, JavaScript

- Created a responsive clone of the KKR official website.
- Designed interactive layouts using modern frontend development practices.

CERTIFICATIONS

- Advanced Diploma Course in Computer Programming – **CADD CAE COMPUTERS** 6 months.
- Fundamentals of Information Security ,Introduction to Data Science – **INFOSYS SPRINGBOARD.**
- Google Cybersecurity – **COURSERA.**
- Virtual Experience Programs – **Forage** (AWS Solutions Architecture, Tata GenAI Powered Data Analytics).
